

# Make - up design 1

Prior to applying make up to the eyes and lips you need to apply **foundation** all over the child's face. *Choose a colour that matches their natural skin tone.*

Then apply some **rose/ pink coloured blush** to the cheeks, highlighting the cheekbone.

A **pink-red tone of lipstick** is optional and will make your child's smile stand out on stage!

Children will need a thick line of **black (or dark) eyeliner** that goes across the top of their eyelid and extends out 1-2 cms on an upward slant.

Once all other make up is done, finish by applying **black mascara** to the eyelashes.
