PURPOSE

The purpose of the Student Dress Code is to outline Morang South Primary School's requirements for student dress and appearance and to provide information about uniform purchase and support, dress code implementation and exemption processes.

This dress code has been developed by Morang South Primary School's School Council in consultation with our school community to ensure that it respects the rights of individual students whilst reflecting the values and interests of our community.

The Student Dress Code aims to:

- foster a sense of community and belonging and encourages students to develop pride in their appearance
- enhance the profile and identity of the school and its students within the wider community
- support Morang South's commitment to ensuring that our students feel equal and are dressed safely and appropriately for school activities.
- reduce student competition on the basis of clothing
- enable students to be easily identified during excursions and off-site activities.

The School Council has developed a dress code that we believe provides a range of choices for students and is cost effective for families.

In 2025, there are a number of new uniform items that will replace older style pieces. A period of 2 years, from commencement of school in 2025, will be provided to assist the families with the process and related costs associated with these changes.

SCOPE

Students are expected to comply with this Student Dress Code while traveling to and from school, during school hours and when attending school activities.

Support for families experiencing difficulty

Please contact the Principal to discuss support that we may be able to provide to families experiencing difficulty meeting uniform costs, including information about eligibility for uniform support through State Schools' Relief. Further information about State Schools' Relief is also available on their website: <https://www.ssr.net.au/>

IMPLEMENTATION

Morang South Primary School will ensure that this Uniform and Student Dress Code policy is communicated to all families and students through our website and in the enrolment information pack. We will work with families who may be experiencing difficulties complying with this policy where reasonable and possible.

A note of explanation from the parents is required on each occasion the child is not in uniform. If a particular student is regularly out of uniform, the Principal (or delegate) will follow up the matter with the child's parents with a view to enabling the child to conform to the policy. Students wearing non-compliant uniform items may be asked to change into a compliant item of clothing provided by the school.

If a student is out of school uniform or otherwise breaches the Uniform and Student Dress Code policy on a recurring basis, a note will be provided via the student, or communicated directly to the parents by the classroom teacher. If non-compliance with the dress code becomes a continued occurrence, the Principal will be informed and a phone call home may be required. In this event, the school will continue to work with the student and family to support compliance.

Actions undertaken by the school in relation to on-going non-compliance will be in accordance with the Student Engagement, Wellbeing and Inclusion policy guidelines.

EXEMPTIONS TO STUDENT DRESS CODE

We recognise that there may be situations where the application of this dress code may affect students unequally.

Students and their parents or carers may apply either in writing or in person to the Principal for an exemption to this Student Dress Code if:

- an aspect of this code prevents the student from complying with a requirement of their religious, ethnic or cultural beliefs or background
- the student has a particular disability or health condition that requires a departure from the dress code
- the student or their parents/carers can demonstrate particular economic hardship that prevents them from complying with the dress code.
- students require immediate commencement (new student) and a uniform is not accessible in the short term; to be negotiated with the Principal.

When the Principal receives a request for an exemption, they will:

- consider the grounds for the exemption request
- explain the process to the student and/or their parents/carers

- consider OHS factors, safety and wellbeing
- encourage the student and/or their parents/carers to support their application with evidence.

If an exemption is not allowed, then written reasons will be provided to the student and/or their parents or carers.
